# NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2017 *(unaudited) (In thousands of Canadian dollars, except shares and per share amounts)*

## NOTE 1 CORPORATE INFORMATION

IGM Financial Inc. (the Company) is a publicly listed company (TSX: IGM), incorporated and domiciled in Canada. The registered address of the Company is 447 Portage Avenue, Winnipeg, Manitoba, Canada. The Company is controlled by Power Financial Corporation.

IGM Financial Inc. is a financial services company which serves the financial needs of Canadians through its principal subsidiaries, each operating distinctly within the advice segment of the financial services market. The Company's wholly-owned principal subsidiaries are Investors Group Inc. and Mackenzie Financial Corporation.

## NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The unaudited Interim Condensed Consolidated Financial Statements of the Company (Interim Financial Statements) have been prepared in accordance with International Accounting Standard 34, *Interim Financial Reporting*, using the accounting policies as set out in Note 2 to the Consolidated Financial Statements for the year ended December 31, 2016. The Interim Financial Statements should be read in conjunction with the Consolidated Financial Statements in the 2016 IGM Financial Inc. Annual Report.

### FUTURE ACCOUNTING CHANGES

The Company continuously monitors the potential changes proposed by the International Accounting Standards Board (IASB) and analyzes the effect that changes in the standards may have on the Company's operations.

### *IFRS 9 FINANCIAL INSTRUMENTS*

The IASB issued IFRS 9 which replaces IAS 39, *Financial Instruments: Recognition and Measurement*, the current standard for accounting for financial instruments. The standard was completed in three separate phases:

- Classification and measurement: This phase requires that financial assets be classified at either amortized cost or fair value on the basis of the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.
- Impairment methodology: This phase replaces the current incurred loss model for impairment of financial assets with an expected loss model.
- Hedge accounting: This phase replaces the current rule-based hedge accounting requirements in IAS 39 with guidance that more closely aligns the accounting with an entity's risk management activities.

The transition to IFRS 9 is managed by a committee comprised of senior levels of management. Periodic reporting on the progress against plan is provided to this committee and other affected stakeholders within the Company. To date, the Company's efforts have been focused on updating accounting policies to address key aspects of the Standard including classification and measurement of financial instruments, reviewing the impact to its impairment models and assessing the use of hedge accounting under IFRS 9.

The combined application of the contractual cash flow characteristics and business model tests as at January 1, 2018 may result in some assets currently classified as held for trading under IAS 39 being reclassified to fair value through other comprehensive income or amortized cost under IFRS 9. The Company continues to make progress towards finalizing its assessment of IFRS 9, however, at this stage, it is not possible to reliably quantify the potential financial effect to the Company from the adoption of IFRS 9.

The Company will update accounting policy manuals, internal control documents and implement changes to business and financial reporting processes and systems to support the implementation of the Standard by its effective date of January 1, 2018.

## NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

### *IFRS 15 REVENUE FROM CONTRACTS WITH CUSTOMERS*

The IASB issued IFRS 15 which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. The model requires an entity to recognize revenue as the goods or services are transferred to the customer in an amount that reflects the expected consideration. This standard is effective for annual reporting periods beginning on or after January 1, 2018 and the standard is currently being assessed, however, no significant impact to the ongoing recognition of the Company's revenues is expected.

### *IFRS 16 LEASES*

The IASB issued IFRS 16 which requires a lessee to recognize a right-of-use asset representing its right to use the underlying leased asset and a corresponding lease liability representing its obligation to make lease payments for all leases. A lessee recognizes the related expense as depreciation on the right-of-use asset and interest on the lease liability. Short-term (less than 12 months) and low-value asset leases are exempt from these requirements. The standard is effective for annual reporting periods beginning on or after January 1, 2019. The impact of this standard is currently being assessed.

| Balance, end of period | $ 679 | $ 722 |

Total impaired loans as at June 30, 2017 were $2,470 (December 31, 2016 – $2,607).

Total interest income on loans classified as loans and receivables was $99.3 million (2016 – $95.0 million). Total interest expense on obligations to securitization entities, related to securitized loans, was $66.7 million (2016 – $63.1 million). Gains realized on the sale of residential mortgages totalled $6.6 million (2016 – $8.3 million). Fair value adjustments related to mortgage banking operations totalled $1.0 million (2016 – negative $4.3 million). These amounts were included in Net investment income and other. Net investment income and other also includes other mortgage banking related items including interest income on mortgages held for trading, portfolio insurance, issue costs, and other items.

## NOTE 5 SECURITIZATIONS

The Company securitizes residential mortgages through the Canada Mortgage and Housing Corporation (CMHC) sponsored National Housing Act Mortgage-Backed Securities (NHA MBS) Program and Canada Mortgage Bond (CMB) Program and through Canadian bank-sponsored asset-backed commercial paper (ABCP) programs. These transactions do not meet the requirements for derecognition as the Company retains prepayment risk and certain elements of credit risk. Accordingly, the Company has retained these mortgages on its balance sheets and has recorded offsetting liabilities for the net proceeds received as Obligations to securitization entities which are recorded at amortized cost.

The Company earns interest on the mortgages and pays interest on the obligations to securitization entities. As part of the CMB transactions, the Company enters into a swap transaction whereby the Company pays coupons on CMBs and receives investment returns on the NHA MBS and the reinvestment of repaid mortgage principal. A component of this swap, related to the obligation to pay CMB coupons and receive investment returns on repaid mortgage principal, is recorded as a derivative and had a negative fair value of $11.0 million at June 30, 2017 (December 31, 2016 – negative $23.1 million).

Under the NHA MBS and CMB Program, the Company has an obligation to make timely payments to security holders regardless of whether amounts are received from mortgagors. All mortgages securitized under the NHA MBS and CMB Program are insured by CMHC or another approved insurer under the program. As part of the ABCP transactions, the Company has provided cash reserves for credit enhancement which are recorded at cost. Credit risk is limited to these cash reserves and future net interest income as the ABCP Trusts have no recourse to the Company's other assets for failure to make payments when due. Credit risk is further limited to the extent these mortgages are insured.

## NOTE 5 SECURITIZATIONS *(continued)*

| JUNE 30, 2017 | SECURITIZED MORTGAGES | OBLIGATIONS TO SECURITIZATION ENTITIES | NET |

| Fair value | $ 7,838,295 | $ 7,873,118 | $ (34,823) |

The carrying value of Obligations to securitization entities, which is recorded net of issue costs, includes principal payments received on securitized mortgages that are not due to be settled until after the reporting period. Issue costs are amortized over the life of the obligation on an effective interest rate basis.

The Company's proportionate share of Lifeco's earnings is recorded in the Consolidated Statements of Earnings. At June 30, 2017, the Company held 39,737,388 (December 31, 2016 – 39,737,388) shares of Lifeco, which represented an equity interest of 4.0% (December 31, 2016 – 4.0%).

In the second quarter of 2017, Lifeco established a restructuring provision. The Company's after-tax proportionate share was $5.1 million and is recorded in the Consolidated Statements of Earnings.

## NOTE 7 EMPLOYEE BENEFITS

The Company, at its discretion, may from time to time increase certain benefits paid to retired members of the plan. Under its previous policy, the Company had granted benefit increases in most years and the obligation included an estimate for future increases. The Company has implemented a new policy that limits the possibility of future benefit increases. As a result of this change, the Company revalued its pension obligation and has recognized a reduction to its obligation of $50.4 million as a decrease to non-commission expense.

### NORMAL COURSE ISSUER BID

In the second quarter of 2017, there were no shares purchased (2016 – 1,227,700 shares purchased at a cost of $46.8 million). In the six months ended June 30, 2017, there were no shares purchased (2016 – 4,219,600 purchased at a cost of $151.1 million). Any premium paid to purchase the shares in excess of the stated value was charged to Retained earnings.

The Company commenced a normal course issuer bid on March 20, 2017 which is effective until March 19, 2018. Pursuant to this bid, the Company may purchase up to 12.0 million or 5% of its common shares outstanding as at February 28, 2017. On March 20, 2016, the Company commenced a normal course issuer bid, effective until March 19, 2017, which authorized it to purchase up to 12.1 million or 5% of its common shares outstanding as at March 10, 2016.

In connection with its normal course issuer bid, the Company has established an automatic securities purchase plan for its common shares. The automatic securities purchase plan provides standard instructions regarding how the Company's common shares are to be purchased under its normal course issuer bid during certain pre-determined trading blackout periods. Outside of these pre-determined trading blackout periods, purchases under the Company's normal course issuer bid will be completed based upon management's discretion.

## NOTE 9 CAPITAL MANAGEMENT

The capital management policies, procedures and activities of the Company are discussed in the Capital Resources section of the Company's Management's Discussion and Analysis contained in the Second Quarter 2017 Report to Shareholders and in Note 17 to the Consolidated Financial Statements in the 2016 IGM Financial Inc. Annual Report and have not changed significantly since December 31, 2016.

## NOTE 10 SHARE-BASED PAYMENTS

### STOCK OPTION PLAN

| | JUNE 30 2017 | DECEMBER 31 2016 |
|---|---|---|
| Common share options | | |
| – Outstanding | **9,138,733** | 8,484,030 |
| – Exercisable | **4,152,801** | 3,858,518 |

In the second quarter of 2017, the Company granted 22,475 options to employees (2016 – nil). In the six months ended June 30, 2017, the Company granted 1,418,930 options to employees (2016 – 1,575,595). The weighted-average fair value of options granted during the six months ended June 30, 2017 has been estimated at $2.52 per option (2016 – $1.61) using the Black-Scholes option pricing model. The weighted-average closing share price at the grant dates was $41.67. The assumptions used in these valuation models include:

| SIX MONTHS ENDED JUNE 30 | 2017 | 2016 |

## NOTE 12 RISK MANAGEMENT

The risk management policies and procedures of the Company are discussed in the Financial Instruments Risk section of the Company's Management's Discussion and Analysis contained in the Second Quarter 2017 Report to Shareholders and in Note 20 to the Consolidated Financial Statements in the 2016 IGM Financial Inc. Annual Report and have not changed significantly since December 31, 2016.

## NOTE 13 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair values are management's estimates and are calculated using market conditions at a specific point in time and may not reflect future fair values. The calculations are subjective in nature, involve uncertainties and are matters of significant judgment.

All financial instruments measured at fair value and those for which fair value is disclosed are classified into one of three levels that distinguish fair value measurements by the significance of the inputs used for valuation.

Fair value is determined based on the price that would be received for an asset or paid to transfer a liability in the most advantageous market, utilizing a hierarchy of three different valuation techniques, based on the lowest level input that is significant to the fair value measurement in its entirety.

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Observable inputs other than Level 1 quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or inputs other than quoted prices that are observable or corroborated by observable market data; and

Level 3 – Unobservable inputs that are supported by little or no market activity. Valuation techniques are primarily model-based.

Markets are considered inactive when transactions are not occurring with sufficient regularity. Inactive markets may be characterized by a significant decline in the volume and level of observed trading activity or through large or erratic bid/offer spreads. In those instances where traded markets are not considered sufficiently active, fair value is measured using valuation models which may utilize predominantly observable market inputs (Level 2) or may utilize predominantly non-observable market inputs (Level 3). Management considers all reasonably available information including indicative broker quotations, any available pricing for similar instruments, recent arm's length market transactions, any relevant observable market inputs, and internal model-based estimates. Management exercises judgment in determining the most appropriate inputs and the weighting ascribed to each input as well as in the selection of valuation methodologies.

Fair value is determined using the following methods and assumptions:

Securities and other financial assets and financial liabilities are valued using quoted prices from active markets, when available. When a quoted market price is not readily available, valuation techniques are used that require assumptions related to discount rates and the timing and amount of future cash flows. Wherever possible, observable market inputs are used in the valuation techniques.

Loans classified as Level 2 are valued using market interest rates for loans with similar credit risk and maturity.

Loans classified as Level 3 are valued by discounting the expected future cash flows at prevailing market yields.

Obligations to securitization entities are valued by discounting the expected future cash flows at prevailing market yields for securities issued by these securitization entities having similar terms and characteristics.

Deposits and certificates are valued by discounting the contractual cash flows using market interest rates currently offered for deposits with similar terms and credit risks.

Long-term debt is valued using quoted prices for each debenture available in the market.

Derivative financial instruments are valued based on quoted market prices, where available, prevailing market rates for instruments with similar characteristics and maturities, or discounted cash flow analysis.

Level 1 financial instruments include exchange-traded equity securities and open-end investment fund units and other financial liabilities in instances where there are quoted prices available from active markets.

Level 2 assets and liabilities include fixed income securities, loans, derivative financial instruments, deposits and certificates and long-term debt. The fair value of fixed income securities is determined using quoted market prices or independent dealer price quotes. The fair value of derivative financial instruments and deposits and certificates are determined using valuation models, discounted cash flow methodologies, or similar techniques using primarily observable market inputs. The fair value of long-term debt is determined using indicative broker quotes.

Level 3 assets and liabilities include securities with little or no trading activity valued using broker-dealer quotes, loans, other financial assets, obligations to securitization entities and derivative financial instruments. Derivative financial instruments consist of principal reinvestment account swaps which represent the component of a swap entered into under the CMB Program whereby the Company pays coupons on Canada Mortgage Bonds and receives investment returns on the reinvestment of repaid mortgage principal. Fair value is determined by discounting the projected cashflows of the swaps. The notional amount, which is an input used to determine the fair value of the swap, is determined using an average unobservable prepayment rate of 15% which is based on historical prepayment patterns. An increase (decrease) in the assumed mortgage prepayment rate increases (decreases) the notional amount of the swap.

The following table presents the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. The table distinguishes between those financial instruments recorded at fair value and those recorded at amortized cost. The table also excludes fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value. These items include cash and cash equivalents, accounts and other receivables, certain other financial assets, accounts payable and accrued liabilities, and certain other financial liabilities.

## NOTE 15 RELATED PARTY TRANSACTIONS

In 2014 and 2015, the Company entered into tax loss consolidation transactions with its parent company, Power Financial Corporation, after obtaining advance tax rulings. The Company acquired an aggregate of $2.00 billion of 4.51% preferred shares of a wholly-owned subsidiary of Power Financial Corporation and, as sole consideration for the preferred shares, the Company issued $2.00 billion of 4.50% secured demand debentures to Power Financial Corporation. The Company had legally enforceable rights to settle these financial instruments on a net basis which were exercised during the second quarter of 2017, resulting in the termination of this arrangement.

The preferred shares and debentures and related dividend income and interest expense had been offset in the Consolidated Financial Statements of the Company. Tax savings arose due to the tax deductibility of the interest expense.

## NOTE 16 SEGMENTED INFORMATION

The Company's reportable segments are:

- Investors Group
- Mackenzie
- Corporate and Other

These segments reflect the current organizational structure and internal financial reporting. Management measures and evaluates the performance of these segments based on earnings before interest and taxes.

Investors Group earns fee-based revenues in the conduct of its core business activities which are primarily related to the distribution, management and administration of its investment funds. It also earns fee revenues from the provision of brokerage services and the distribution of insurance and banking products. In addition, Investors Group earns intermediary revenues primarily from mortgage banking and servicing activities and from the assets funded by deposit and certificate products.

Mackenzie earns fee-based revenues from services it provides as fund manager to its investment funds and as investment advisor to sub-advisory and institutional accounts.

Corporate and Other includes Investment Planning Counsel, equity income from its investment in Lifeco, net investment income on unallocated investments, other income, and also includes consolidation elimination entries.
