

## IGM Financial Ranked Top Capital Markets and Asset Management Firm in Corporate Knights' Global 100 Most Sustainable Corporations

*IGM Financial identified as one of the world's most sustainable organizations for third consecutive year*

---

**Winnipeg – January 19, 2022:** IGM Financial Inc. (IGM) (TSX:IGM) today announced that it has been identified as one of the world's most sustainable organizations in Corporate Knights' 2022 Global 100 Most Sustainable Corporations ranking. IGM earned this honour for the third consecutive year, placed 41<sup>st</sup> overall, and was the top-rated capital markets and asset management company globally.

Corporate Knights' global study is conducted on an annual basis and evaluates the sustainability performance of more than 6,900 publicly traded companies worldwide. It is based primarily on publicly disclosed data and incorporates 23 key performance indicators. All companies are scored on applicable metrics relative to their peers, with 50% of the weight assigned to Clean Revenue and Clean Investment.

"We are incredibly honoured and proud to be identified once again as one of the world's most sustainable organizations by Corporate Knights," said James O'Sullivan, President and CEO, IGM Financial Inc. "Being ranked as the world's most sustainable company in the capital markets and asset management peer groups is a strong validation of our commitment to sustainability and how we're integrating it into our overall business strategy. We take our role very seriously in being a positive force for the success of our people, clients, communities and shareholders."

According to Corporate Knights, IGM's strong showing was based on top quartile performances for clean revenue, clean investment, paid sick leave, performance for female representation at the executive and board level and sustainability pay links for senior executives.

Mr. O'Sullivan noted some of the recent sustainability-oriented initiatives the IGM family of companies has rolled-out. This includes officially releasing its climate commitments in support of the global momentum achieved at COP26, achieving a number of sustainable investing and climate-related milestones, as well as building out a team and enhanced strategy to further advance diversity, equity and inclusion.

"We have the commitment and building blocks in place for 2022 to be another exciting year to make advancements in sustainability across IGM," concluded Mr. O'Sullivan.
